JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

V. Note by Professor CAYLEY on his Memoir "On the Conditions for the Existence of Three Equal Roots, or of Two Pairs of Equal Roots, of a Binary Quartic or Quintic." Received February 20, 1869.

The title is a misnomer ; I have in fact, in regard to the quintic, considered *not* (as according to the title and introductory paragraph I should have done) the twofold relations belonging to the root-systems 311 and 221 respectively, but the threefold relations belonging to the root-systems 41 and 32 respectively. The word "quadric," p. 582, line 1, should be read "cubic." The proper title is, "On the Conditions for the Existence of certain Systems of Equal Roots of a Binary Quartic or Quintic."

March 4, 1869.

Lieut.-General SABINE, President, in the Chair.

In accordance with the Statutes, the names of the Candidates for election into the Society were read as follows :—

Sir Samuel White Baker, M.A.
 William Baker, C.E.
